**Placement facilities:**

Placement is a very versatile market where we have to have innovation every day, so we have very innovative approach to place & train the student.

- Students to be sent to the companies for placement activity, so that HR manager can know the quality of students.
- Attend conferences & seminars
- Training club for communication & soft skills, English speaking & Aptitude test, GD preparation.
- Practical training to be given to the students.

**For Placement our Institute has following facilities:**

- Main emphasis is given on training the students for aptitude test, GD, communication skills, time management and verbal skills.
- All the HR managers of MNC's are contacted through Internet & teleconferencing, for continuous placement activity.
- We regularly visit company websites for latest manpower requirement.
- All Engineering Institutions in and around Amravati are contacted and pool campuses are held.
- Our department is well equipped with latest gadgets such as LCD, Laptop, PC, PA Systems and other audio visual aids.

**Internet facility:-**

The additive facility provided by the library to its users is the Internet. Already, the library has entered into a consortium with INDEST AICTE, so that, one can surf across the different sites under the consortium.

There are 132 on-line Journals using ASCE, ASME, IEEE. The users are using the facility to enhance their knowledge and also for preparing their Seminar, Project.

**DELNET Service:-**

The Library provides a Delnet service, which is the network of Libraries in the world. It is possible to access the Library database from various digital libraries as per requirement. Similarly the database of our library is also accessible by the users of Delnet.

**Information search service from CD-ROM:-**

The library provides CD's to the users for their reference. The facility is generated by the library and prepared CD's of many E-Journals. There are nearly 46 CD's of this category.

## **Teaching–Learning Process**

### *(a) Theory Subject*

College of Engineering is affiliated to Amravati University. The academic calendar for entire academic session, giving details of various schedules like for class room teaching, completion of laboratory work, sessional examinations, internal viva-voce for laboratory work, viva-voce / test for absentees in sessional examinations, etc. is notified and displayed at the beginning of the session.

The scheme for academic calendar adopted by the department is based on the guidelines provided by the Amravati University. As per University ordinance, teaching session for each semester should be of 13 weeks. Moreover as per University syllabus, the course should be completed within 45 – 52 periods. Based on these guidelines, we make our academic calendar for each semester. The number of contact hours per week for theory classes, laboratory sessions, tutorials, project supervision, and counseling is prepared based on university's scheme.

The Board of Studies in respective branch of engineering of Amravati University reviews the syllabus on regular basis, according to suggestions received from subject teachers and the latest technological advancement in the subject area. Maximum 15% change in syllabus is permitted every year. The recent major change in syllabus was due to the change in pattern of course from annual to semester.

Attendance records for theory and laboratory work are maintained and students having inadequate attendance are informed. Similarly, subject-wise results of final university examinations are analyzed after the commencement of results. The Head of Department conveys the subject-wise result analysis and student's feedback to the principal.

### *(b) Laboratory Work*

The laboratory work is consistent with acquired theoretical background. The laboratory experiments are based on the theory syllabus of the subject. The purpose of performance of laboratory experiments is (i) to confirm the theory taught, and (ii) to demonstrate application of already illustrated theory.

### *(c) Project Work and Seminars*

As per Amravati University scheme, a project batch shall have maximum 9 students. It is suggested to have a subgroup of 4 – 5 students for each project. The respective head of the department should do allotment of project.

## **Evaluation Methodology**

### *(a) Theory Subject*

The evaluation procedure adopted by each department should be along the guidelines provided by the Amravati University. Typically theory subject has internal assessment component of 20 marks and university examination has 80 marks. The teachers evaluate the students judiciously on the basis of student's regularity and performance in the class tests and viva-voce. Attendance records for theory and practical (laboratory work) are maintained and students having inadequate attendance are informed. Separate weightage in sessional marks is given for regular interaction with teachers for which regularity in attendance is a parameter. For higher classes, class tests for a total of 10 marks are conducted. They are conducted during theory periods for the respective subject. Marks for class tests are displayed. The students are shown their answer books in order to ensure that students identify their mistakes and find what corrective measures they should take to improve their performance in final examination. Any grievance in this regard is redressed by an individual teacher. Viva-voce for theory is conducted at the end of the term. Distribution of internal marks for theory is given in Table 1.

<b>Particulars</b>	<b>Internal Marks</b>	
	<b>Per Test</b>	<b>Total</b>
Attendance	05	05
Class Test	10	10
Viva-voce	05	05
	<b>Total</b>	<b>20</b>

**Table 1.** Distribution of internal marks for theory

Maximum 05 incentive marks for the participation of students in games and sports are also considered for deserving cases.

### *(b) Laboratory Work*

The practical subject has internal assessment components of 25 marks and university examination has remaining 25 marks. The teachers evaluate the students on the basis of student's performance in the laboratory, regularity, journal record and final viva-voce at the end of the term. Student's attendance record for laboratory work is maintained and separate weightage in sessional marks is given for regularity in attendance. Distribution of internal marks for laboratory works is given in table 2.

<b>Particulars</b>	<b>Internal Marks for laboratory work</b>
Attendance	05
Performance	10
Viva-voce	10
<b>Total</b>	<b>25</b>

**Table 2.** Distribution of internal marks for laboratory works

*(c) Project and Seminars*

As per university syllabus, project and seminars is under the common subject code. As per university scheme, the internal marks allotted for this subject is 75. The distribution of marks is shown in Table 3.

<b>Particulars</b>	<b>Internal Marks</b>	<b>External Marks</b>
Project	50	75
Seminars	25	-

**Table 3.** The distribution of marks for project and seminars

Regarding project work, the students work under the guidance of teachers (guide) allotted to them. The guides continuously monitor the performance of the students. The guide does the internal assessment, as per success rate of the project based on the work done, understanding of the topic, and the demonstration.

In addition, student is required to prepare and deliver a seminar. The students are asked to deliver their seminars before the staff, students and an evaluation committee comprising of guide and two subject experts. The committee evaluates the students as per subject matter, understanding of the topic and the delivery. The format of evaluation report for seminar is shown in Table 4.
